RE: American Chemical Services NPL Site  
Griffith, Indiana  
Project # 60251

Dear Mr. Hartwick:

I received a letter from you today, by regular mail, stating that the comments on the Risk and Ecological Assessments for the ACS Site were attached, as well as an example of a "hand calculated model for estimating contaminant concentration.

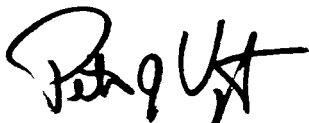

The hand calculated model was attached, but there were no comments attached regarding the Risk Assessment and Ecological Assessment. This is of concern, since the letter also states that we are to submit our revisions to U.S. EPA by September 16, 1991.

Please send a copy of Risk Assessment and Ecological Assessment comments to me and to Kevin Domack as soon as possible.

Kevin Domack's over-night express address is: Warzyn Inc., One Science Court, Madison, WI 53711 (phone 608-231-4747).

Sincerely Yours,

WARZYN ENGINEERING INC.
